## **Cupressus sempervirens**

crown columnar to broad fan-shaped, dark, dense crown  twigs grey-brown, bark grey, slightly grooved  rounded, contiguous scales, matt dark green, evergreen  flowers inconspicuous, yellow  round with slightly elongated cones, green to bluish purple, 2 - 3 cm  None  floxicity usually not toxic to people, (large) pets and livestock  soil type any well-drained soil  soil moisture suitable for dry soil  tolerates partial paving  Minter hardiness zone 8a (-12,2 to -9,5 °C)  Wind resistance good, tolerates sea wind but not cold, drying wind  Other resistances  can withstand wind  avenues and broad streets, narrow streets, parks, squares, cemeteries, coastal areas, large gardens  shape clearstem conifer, specimen conifer		
twigs grey-brown, bark grey, slightly grooved  reaf rounded, contiguous scales, matt dark green, evergreen  inconspicuous, yellow  round with slightly elongated cones, green to bluish purple, 2 - 3 cm  None  roxicity usually not toxic to people, (large) pets and livestock  soil type any well-drained soil  soil moisture  vuitable for dry soil  volerates partial paving  winter hardiness zone  Nind resistance other resistances can withstand wind  avenues and broad streets, narrow streets, parks, squares, cemeteries, coastal areas, large gardens  chape clearstem conifer, specimen conifer	Height	20 – 30 (40) m
rounded, contiguous scales, matt dark green, evergreen inconspicuous, yellow round with slightly elongated cones, green to bluish purple, 2 - 3 cm Spines/thorns None roxicity usually not toxic to people, (large) pets and livestock soil type any well-drained soil soil moisture suitable for dry soil tolerates partial paving Ninter hardiness zone Nind resistance good, tolerates sea wind but not cold, drying wind Other resistances can withstand wind avenues and broad streets, narrow streets, parks, squares, cemeteries, coastal areas, large gardens shape clearstem conifer, specimen conifer	Crown	columnar to broad fan-shaped, dark, dense crown
inconspicuous, yellow retuits round with slightly elongated cones, green to bluish purple, 2 - 3 cm  None  None  Invaicity usually not toxic to people, (large) pets and livestock  Soil type any well-drained soil  Soil moisture suitable for dry soil  Volerates partial paving  Ninter hardiness zone 8a (-12,2 to -9,5 °C)  Nind resistance good, tolerates sea wind but not cold, drying wind  Other resistances can withstand wind  Application avenues and broad streets, narrow streets, parks, squares, cemeteries, coastal areas, large gardens  Shape clearstem conifer, specimen conifer	Bark and branches	twigs grey-brown, bark grey, slightly grooved
round with slightly elongated cones, green to bluish purple, 2 - 3 cm  None  None  Noxicity  usually not toxic to people, (large) pets and livestock  soil type  any well-drained soil  suitable for dry soil  tolerates partial paving  Ninter hardiness zone  Ninter hardiness zone  Sa (-12,2 to -9,5 °C)  Wind resistance  good, tolerates sea wind but not cold, drying wind  Other resistances  can withstand wind  Application  avenues and broad streets, narrow streets, parks, squares, cemeteries, coastal areas, large gardens  clearstem conifer, specimen conifer	Leaf	rounded, contiguous scales, matt dark green, evergreen
None  Toxicity usually not toxic to people, (large) pets and livestock  any well-drained soil  soil type any well-drained soil  suitable for dry soil tolerates partial paving  Winter hardiness zone Wind resistance good, tolerates sea wind but not cold, drying wind  Application avenues and broad streets, narrow streets, parks, squares, cemeteries, coastal areas, large gardens clearstem conifer, specimen conifer	Flowers	inconspicuous, yellow
roxicity usually not toxic to people, (large) pets and livestock soil type any well-drained soil suitable for dry soil tolerates partial paving Winter hardiness zone 8a (-12,2 to -9,5 °C) Wind resistance good, tolerates sea wind but not cold, drying wind Other resistances can withstand wind avenues and broad streets, narrow streets, parks, squares, cemeteries, coastal areas, large gardens clearstem conifer, specimen conifer	Fruits	round with slightly elongated cones, green to bluish purple, 2 - 3 cm
any well-drained soil  soil moisture  suitable for dry soil  tolerates partial paving  Ninter hardiness zone  8a (-12,2 to -9,5 °C)  Wind resistance  good, tolerates sea wind but not cold, drying wind  Other resistances  can withstand wind  avenues and broad streets, narrow streets, parks, squares, cemeteries, coastal areas, large gardens  clearstem conifer, specimen conifer	Spines/thorns	None
Soil moisture  suitable for dry soil  tolerates partial paving  Winter hardiness zone  8a (-12,2 to -9,5 °C)  Wind resistance  good, tolerates sea wind but not cold, drying wind  Cher resistances  can withstand wind  avenues and broad streets, narrow streets, parks, squares, cemeteries, coastal areas, large gardens  Shape  clearstem conifer, specimen conifer	Toxicity	usually not toxic to people, (large) pets and livestock
Paving tolerates partial paving  Winter hardiness zone 8a (-12,2 to -9,5 °C)  Wind resistance good, tolerates sea wind but not cold, drying wind  Other resistances can withstand wind  Application avenues and broad streets, narrow streets, parks, squares, cemeteries, coastal areas, large gardens  Clearstem conifer, specimen conifer	Soil type	any well-drained soil
Wind resistance good, tolerates sea wind but not cold, drying wind  Other resistances can withstand wind  Application avenues and broad streets, narrow streets, parks, squares, cemeteries, coastal areas, large gardens  Clearstem conifer, specimen conifer	Soil moisture	suitable for dry soil
Wind resistance good, tolerates sea wind but not cold, drying wind  Can withstand wind  Application avenues and broad streets, narrow streets, parks, squares, cemeteries, coastal areas, large gardens  Clearstem conifer, specimen conifer	Paving	tolerates partial paving
Can withstand wind  Application avenues and broad streets, narrow streets, parks, squares, cemeteries, coastal areas, large gardens  Clearstem conifer, specimen conifer	Winter hardiness zone	8a (-12,2 to -9,5 °C)
Application avenues and broad streets, narrow streets, parks, squares, cemeteries, coastal areas, large gardens  Clearstem conifer, specimen conifer	Wind resistance	good, tolerates sea wind but not cold, drying wind
Shape clearstem conifer, specimen conifer	Other resistances	can withstand wind
	Application	avenues and broad streets, narrow streets, parks, squares, cemeteries, coastal areas, large gardens
Origin Eastern Mediterranean coastal area, Eastern North Africa, Asia Minor, Northern Iran	Shape	clearstem conifer, specimen conifer
	Origin	Eastern Mediterranean coastal area, Eastern North Africa, Asia Minor, Northern Iran

Large tree whose habit varies from very narrow columnar to broad horizontal fan-shaped. The various clones can sometimes be distinguished by the invalid epithets f. horizontalis for the broad shape and f. sempervirens or f. stricta for the columnar shape. In practice the narrow columnar shape is usually meant. It can grow to 20 to 30 m tall, or even to 40 m in some cases. The bark is grey and slightly grooved when mature. The scaly foliage consists of small, matt dark green contiguous scales. The cypress grows on any soil provided it is well drained. Tolerates a lot of wind, including sea wind, but has poor tolerance to cold, drying wind. The limited winter hardiness means this tree is only suitable for mild climatic zones and in sheltered sites such as patios, atriums and courtyards.
