

Ginkgo biloba 'Fastigiata'

Height	15-25 m
Crown	columnar, light, open crown
Bark and branches	brown, grey
Leaf	green
Autumn colour	yellow
Flowers	yellowgreen, flowers in April
Fruits	fruitless cultivar
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, peaty soil, all soil types
Paving	tolerates paving
Winter hardiness zone	5a (-28,8 to -26,1 °C)
Wind resistance	fairly to good
Other resistances	resistant to frost (WH 1 - 6), can withstand wind
Application	avenues and broad streets, parks, squares, tree containers, cemeteries, roof gardens, industrial areas, large gardens
Shape	clearstem tree, feathered tree, clearstem conifer, specimen conifer

A column-shaped selection with a narrow, column-shaped crown. The main stem grows remarkably straight and bears lateral branches at an angle of approx. 45°. Height 15 - 25 m, width to approx. 8 m. Slow-growing, particularly when young. The fan-shaped leaves and flower buds are on short shoots. The leaves grow in bundles of 3 - 5 together and have an incised top. Adding decorative value is the golden yellow colour this tree turns in autumn. 'Fastigiata' is a male selection, so without fruit, thus excellently suitable as avenue and street tree. Its narrow crown renders it suitable for small gardens, as well. Requires a site with ample light. Winter hardiness zone: 5a
