

## Ginkgo biloba 'Princeton Sentry'

<b>Height</b>	15-20 m
<b>Crown</b>	narrow conical, light, open crown
<b>Bark and branches</b>	brown, grey
<b>Leaf</b>	green
<b>Autumn colour</b>	yellow
<b>Flowers</b>	green, flowers in April
<b>Fruits</b>	fruitless cultivar
<b>Spines/thorns</b>	None
<b>Toxicity</b>	usually not toxic to people, (large) pets and livestock
<b>Soil type</b>	clayed soil, loamy soil, sandy soil, peaty soil, all soil types
<b>Paving</b>	tolerates paving
<b>Winter hardiness zone</b>	5a (-28,8 to -26,1 °C)
<b>Wind resistance</b>	fairly to good
<b>Other resistances</b>	resistant to frost (WH 1 - 6), can withstand wind
<b>Application</b>	avenues and broad streets, squares, tree containers, cemeteries, roof gardens, industrial areas, large gardens
<b>Shape</b>	clearstem tree, feathered tree, clearstem conifer, specimen conifer

A narrow, column-shaped selection that broadens later. The main stem grows remarkably straight and branches grow in a uniform, open pattern. The branches slant upwards slightly. Height 15 - 20 m, width to approx. 6 m. Slow-growing, particularly when young. The fan-shaped leaves and flower buds are on short shoots. The leaves grow in bundles of 3 - 5 together and have an incised top. The autumn colour is golden yellow. 'Princeton Sentry' is a male type that is excellently suited as a street tree, thanks to its lack of fruit. It is also suitable for small gardens. Requires a site with ample light. Winter hardiness zone: 5a
