

Acer campestre 'Eco Sentry'

Height	6-8 m
Crown	ovoid / egg-shaped, dark, dense crown
Bark and branches	brown, grey
Leaf	green
Autumn colour	yellow
Flowers	yellowgreen, flowers in May
Fruits	greenbrown
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, peaty soil, all soil types
Paving	tolerates partial paving
Winter hardiness zone	5a (-28,8 to -26,1 °C)
Wind resistance	good/very good
Other resistances	resistant to frost (WH 1 - 6), can withstand wind, resistant to de-icing salt
Fauna tree	resistant to frost (WH 1 - 6), can withstand wind, resistant to de-icing salt, valuable for butterflies
Application	avenues and broad streets, narrow streets, parks, squares, tree containers, cemeteries, roof gardens, coastal areas, industrial areas, large gardens, windbreaks
Shape	clearstem tree

Small tree with a strikingly compact, dense crown. When young, the crown is broad and columnar but soon becomes narrow and pyramidal with multiple central leaders. The dark green leaf is conspicuously undulate. The autumn colour is a dark brownish yellow. The tree is highly resistant to mildew, making 'Eco Sentry' very suitable for application as an avenue tree. Not only for green borders and road shoulders, but also in narrow streets and housing estates, and on squares. Does not grow well enclosed by paved surfaces.
