

Fraxinus angustifolia

'Elegantissima'

Height	6-8 m, slow growing
Crown	round/spherical, half-open crown
Bark and branches	brown, grey
Leaf	green, feathered leaf
Autumn colour	yellow
Flowers	flowers in April
Fruits	fruitless cultivar
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, nutrient-poor soil, calcareous soil
Soil moisture	suitable for dry soil, suitable for wet soil
Paving	tolerates paving
Winter hardiness zone	6b (-20,5 to -17,8 °C)
Wind resistance	good
Other resistances	resistant to frost (WH 1 - 6), can withstand wind, resistant to de-icing salt
Application	avenues and broad streets, parks, squares, cemeteries, large gardens

Fraxinus angustifolia 'Elegantissima' is a slow growing tree with a wide branching spherical crown. The tree can attain a height of circa 8 m. The light green, compound leaf is 15 - 20 cm large and has a finely and sharply serrated margin. It is odd-pinnate with 11 - 13 leaflets. In Autumn it turns strikingly yellow. Does not bear fruits. Is used as a park tree and in wide green belts. The tree has few soil requirements and can withstand drought. Good wind resistance. Winter hardiness zone: 6b
