

## Fraxinus pennsylvanica 'Urbanite'

<b>Height</b>	15-18 m
<b>Crown</b>	broad conical, half-open crown
<b>Bark and branches</b>	brown, grey
<b>Leaf</b>	green, feathered leaf
<b>Autumn colour</b>	red
<b>Flowers</b>	green, flowers in May
<b>Fruits</b>	brown, seldom
<b>Spines/thorns</b>	None
<b>Toxicity</b>	usually not toxic to people, (large) pets and livestock
<b>Soil type</b>	clayed soil, loamy soil, sandy soil, calcareous soil
<b>Soil moisture</b>	suitable for dry soil, suitable for wet soil
<b>Paving</b>	tolerates partial paving
<b>Winter hardiness zone</b>	4 (-34,4 to -28,9 °C)
<b>Wind resistance</b>	good
<b>Other resistances</b>	resistant to frost (WH 1 - 6), can withstand wind, resistant to de-icing salt
<b>Application</b>	avenues and broad streets, parks, squares, cemeteries, coastal areas, large gardens, windbreaks

Fraxinus pennsylvanica 'Urbanite' is an American selection with a closed, spreading pyramidal crown. It can attain a height of 15 - 18 m. The bark is brown grey. The leathery, odd-pinnate leaves are shiny dark green and turn brown-red to bronze-red in autumn. After the inconspicuous greenish flowers in May/June, sometimes winged fruits (keys) appear. Useful as a park and avenue tree for wide road profiles. Prefers dry, not too poor soil and tolerates urban climates well. Winter hardiness zone: 4
