Ilex aquifolium 'Aurea Marginata'

Height 6-8 m Crown broad conical, dark, dense crown Bark and branches brown, green Leaf variegated, green/yellow, evergreen Flowers white, flowers in May Fruits little Spines/thorns None Toxicity has toxic components Soil type loamy soil, sandy soil, peaty soil, nutrient-poor soil, acid soil, calcareous soil Paving tolerates no paving Winter hardiness zone 7a (-17,7 to -15,0 °C) Wind resistance very good Other resistances can withstand wind Fauna tree can withstand wind, provides food for birds Application multi-stem treem multi-stem treem multi-stem treem multi-stem treem	broad conical, dark, dense crown rk and branches brown, green
Bark and branches brown, green Leaf variegated, green/yellow, evergreen Flowers white, flowers in May Fruits little Spines/thorns None Toxicity has toxic components Soil type loamy soil, sandy soil, peaty soil, nutrient-poor soil, acid soil, calcareous soil Paving tolerates no paving Winder hardiness zone 7a (-17,7 to -15,0 °C) Wind resistance very good Other resistances can withstand wind Fauna tree can withstand wind, provides food for birds Application parks, tree containers, cemeteries, coastal areas, large gardens, small gardens, patio gardens	rk and branches brown, green
Leaf variegated, green/yellow, evergreen Flowers white, flowers in May Fruits little Spines/thorns None Toxicity has toxic components Soil type loamy soil, sandy soil, peaty soil, nutrient-poor soil, acid soil, calcareous soil Paving tolerates no paving Winter hardiness zone 7a (-17,7 to -15,0 °C) Wind resistance very good Other resistances can withstand wind Fauna tree can withstand wind, provides food for birds Application parks, tree containers, cemeteries, coastal areas, large gardens, small gardens, patio gardens	70
Flowers white, flowers in May Fruits little Spines/thorns None Toxicity has toxic components Soil type loamy soil, sandy soil, peaty soil, nutrient-poor soil, acid soil, calcareous soil Paving tolerates no paving Winter hardiness zone 7a (-17,7 to -15,0 °C) Wind resistance very good Other resistances can withstand wind Fauna tree can withstand wind, provides food for birds Application parks, tree containers, cemeteries, coastal areas, large gardens, small gardens, patio gardens	
Fruits Spines/thorns None Toxicity has toxic components Soil type loamy soil, sandy soil, peaty soil, nutrient-poor soil, acid soil, calcareous soil Paving tolerates no paving Winter hardiness zone 7a (-17,7 to -15,0 °C) Wind resistance very good Other resistances can withstand wind Fauna tree Application little None None None None Application None Non	af variegated, green/yellow, evergreen
Spines/thorns None Toxicity has toxic components Soil type loamy soil, sandy soil, peaty soil, nutrient-poor soil, acid soil, calcareous soil Paving tolerates no paving Winter hardiness zone 7a (-17,7 to -15,0 °C) Wind resistance very good Other resistances can withstand wind Fauna tree can withstand wind, provides food for birds Application Paving None None As toxic components has toxic components components native tolerates no paving ra (-17,7 to -15,0 °C) very good can withstand wind parks, tree containers, cemeteries, coastal areas, large gardens, small gardens, patio gardens	wers white, flowers in May
Toxicity has toxic components loamy soil, sandy soil, peaty soil, nutrient-poor soil, acid soil, calcareous soil reading tolerates no paving To (-17,7 to -15,0 °C) Wind resistance very good Other resistances can withstand wind Fauna tree can withstand wind, provides food for birds Application has toxic components has toxic soil, calcareous soil has	uits little
Soil type loamy soil, sandy soil, peaty soil, nutrient-poor soil, acid soil, calcareous soil Paving tolerates no paving Winter hardiness zone 7a (-17,7 to -15,0 °C) Wind resistance very good Other resistances can withstand wind Fauna tree can withstand wind, provides food for birds Application parks, tree containers, cemeteries, coastal areas, large gardens, small gardens, patio gardens	ines/thorns None
Paving tolerates no paving Winter hardiness zone 7a (-17,7 to -15,0 °C) Wind resistance very good Other resistances can withstand wind Fauna tree can withstand wind, provides food for birds Application parks, tree containers, cemeteries, coastal areas, large gardens, small gardens, patio gardens	xicity has toxic components
Winter hardiness zone 7a (-17,7 to -15,0 °C) Wind resistance very good Other resistances can withstand wind Fauna tree can withstand wind, provides food for birds Application parks, tree containers, cemeteries, coastal areas, large gardens, small gardens, patio gardens	il type loamy soil, sandy soil, peaty soil, nutrient-poor soil, acid soil, calcareous soil
Wind resistance very good Other resistances can withstand wind Fauna tree can withstand wind, provides food for birds Application parks, tree containers, cemeteries, coastal areas, large gardens, small gardens, patio gardens	ving tolerates no paving
Other resistances can withstand wind Fauna tree can withstand wind, provides food for birds Application parks, tree containers, cemeteries, coastal areas, large gardens, small gardens, patio gardens	nter hardiness zone 7a (-17,7 to -15,0 °C)
Fauna tree can withstand wind, provides food for birds Application parks, tree containers, cemeteries, coastal areas, large gardens, small gardens, patio gardens	nd resistance very good
Application parks, tree containers, cemeteries, coastal areas, large gardens, small gardens, patio gardens	her resistances can withstand wind
	una tree can withstand wind, provides food for birds
Shape multi-stem treem	plication parks, tree containers, cemeteries, coastal areas, large gardens, small gardens, patio gardens
•	ape multi-stem treem

Small to medium size tree with densely branched, broad pyramidal crown to about 6 - 8 m. Young twigs are purple, mature bark is green-brown and smooth. The leaves are glossy, dark, olive green with grey-green markings and broad, golden yellow to light yellow margins. The undulate margins have 4 - 7 prickles on each side. The prickles are not regularly spaced. The flowers are fairly inconspicuous. Though female, this cultivar does not usually bear many fruits. Prefers a humic, moist but well-drained soil and tolerates either acidic or calcareous soil. Also suitable for use as a wide hedge.
