

Malus 'Snowdrift'

Height	6-8 m
Crown	round/spherical, dark, dense crown
Bark and branches	brown, grey
Leaf	green
Flowers	white, flowers in April
Fruits	orange, red
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, acid soil, calcareous soil
Paving	tolerates paving
Winter hardiness zone	4 (-34,4 to -28,9 °C)
Wind resistance	good, susceptible to sea wind
Other resistances	resistant to frost (WH 1 - 6), can withstand wind
Fauna tree	resistant to frost (WH 1 - 6), can withstand wind, provides food for birds
Application	parks, squares, cemeteries, industrial areas, large gardens, small gardens, patio gardens
Shape	clearstem tree

Small tree, reaches about 6 m tall and wide. The tree has a round, very regular shaped crown and dense branching giving it a rather more formal look than other Malus cultivars. The leaves are very healthy, shiny dark green. The flower buds are pink: the open flowers white. The flowers have a diameter of approx. 3 cm. The fruits are orange-red and approx. 1 cm. They remain on the tree until into winter. 'Snowdrift' has rich annual blossom. The ornamental value of the blossom is enhanced by the fine, dense crown shape. Low scab susceptibility.
