

Malus toringo 'Brouwers Beauty'

Height	5 - 6 m
Crown	broad fan-shaped, half-open crown, capricious growing
Bark and branches	grey-brown, smooth
Leaf	oval, green
Flowers	light pink, buds purplish pink, about 2.5 - 3 cm, April/late May, fragrant flowers
Fruits	yellow with orange-red blush, Ø about 1 cm
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	fertile, well drained soil
Paving	tolerates paving
Winter hardiness zone	5a (-28,8 to -26,1 °C)
Wind resistance	good, susceptible to sea wind
Other resistances	resistant to frost (WH 1 - 6), can withstand wind
Fauna tree	resistant to frost (WH 1 - 6), can withstand wind, provides food for birds
Application	narrow streets, parks, squares, tree containers, cemeteries, roof gardens, industrial areas, large gardens, small gardens, patio gardens
Shape	clearstem tree, multi-stem treem
Origin	NAKB, Zeewolde, Netherlands, 1996

Malus toringo 'Brouwers Beauty' is a tree that grows vertically and has a strong main stem. It eventually assumes a broad fan shape with somewhat overhanging branches. Height and width 5 - 6 m. The oval green leaves have a sharply serrated edge. It produces abundant pale pink flowers. The flowers are single, the flower buds purple-pink. Yellow to orange-yellow fruits, Ø approx. 1 cm, appear in the late summer and remain on the tree until the end of October. For parks, wide streets, green verges and small gardens. Slightly sensitive to scab. Winter hardiness zone: 5a
