

Malus 'Van Eseltine'

Height	6 m
Crown	broad vase-shaped, half-open crown
Bark and branches	brown
Leaf	green
Flowers	pink, flowers in May
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, acid soil, calcareous soil
Paving	tolerates paving
Winter hardiness zone	4 (-34,4 to -28,9 °C)
Wind resistance	good, susceptible to sea wind
Other resistances	resistant to frost (WH 1 - 6), can withstand wind
Fauna tree	resistant to frost (WH 1 - 6), can withstand wind, provides food for birds
Application	narrow streets, parks, squares, cemeteries, industrial areas, large gardens, small gardens, patio gardens
Shape	clearstem tree, multi-stem treem

Malus 'Van Eseltine' is a fairly old (1942) American cultivar. The tree has a narrow crown that later becomes broad and vase-shaped. Height approx. 6 m. The leaves are dark green. The semi-double flowers are deep pink and very large, Ø 4 - 5 cm, and emerge in early or mid-May. The unremarkable fruits are yellowish-green and 1.5 - 2 cm in diameter. Can be used in parks, streets and gardens. It makes heavy demands on the soil as regards moisture supply and fertility. Sensitive to sea wind. Winter hardiness zone: 4
