

Prunus ×gondouinii 'Schnee'

Height	5-6 m
Crown	narrow vase-shaped, dark, dense crown
Bark and branches	brown, grey
Leaf	green
Autumn colour	yellow, orange, red
Flowers	white, flowers in April
Fruits	red, seldom
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, calcareous soil
Paving	tolerates partial paving
Winter hardiness zone	4 (-34,4 to -28,9 °C)
Wind resistance	fairly
Other resistances	resistant to frost (WH 1 - 6)
Fauna tree	resistant to frost (WH 1 - 6), valuable for bees (honey plant)
Application	avenues and broad streets, tree containers, cemeteries, large gardens, small gardens, patio gardens
Shape	clearstem tree, multi-stem treem

Pretty tree with a densely branched crown. It starts off a narrow vase shape but later becomes flattened spherical. Height 5 - 6 m. The oval to obovate leaves are dark green and grow to 5 - 9 cm in size. The autumn colour is yellow to orange-red. 'Schnee' produces many large, single, pure white flowers from late April to early May before the leaves emerge. The flowers are grouped in bundles (up to 10 per bundle). The tree produces few, if any, red fruits. It is used in parks, streets and small gardens. Prefers fertile humid soil. Winter hardiness zone: 4
