

Prunus mume

Height	5-10 m
Crown	flatened spherical, half-open crown
Bark and branches	brown
Leaf	green
Flowers	pink, white, flowers in March, fragrant flowers
Fruits	edible fruits
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, calcareous soil
Paving	tolerates no paving
Winter hardiness zone	6b (-20,5 to -17,8 °C)
Wind resistance	moderate
Other resistances	resistant to frost (WH 1 - 6)
Fauna tree	resistant to frost (WH 1 - 6), valuable for butterflies
Application	parks, tree containers, cemeteries, large gardens, small gardens, patio gardens
Shape	clearstem tree, multi-stem treem, clearstem fruit tree

Small tree with spreading branches and a flattened spherical crown. Height 5 - 10 m. The bark is deeply grooved and the young twigs are smooth and green. The thin dark green leaves are a broad oval shape and measure 5 - 10 cm. They taper to a point and have a double serrated edge. The underside is light green. The pink, tending to white, flowers have a strong smell of almonds. They are 2 - 3 cm in size and stand alone or in pairs. They appear in March, before the leaves, and are followed by green, edible, apricot-like fruits, diameter 3 - 4 cm. Winter hardiness zone: 6b
