Pyrus calleryana 'Bradford'

Crown round/spherical, half-open crown Bark and branches brown Leaf green Autumn colour red, purple Flowers white, flowers in April Fruits brown, little Spines/thorns None Toxicity usually not toxic to people, (large) pets and livestock Soil type clayed soil, loamy soil, sandy soil, nutrient-poor soil, calcareous soil Paving tolerates paving Winter hardiness zone 6a (-23,3 to -20,6 °C) Wind resistance good, also on the coast Other resistances resistant to frost (WH 1 - 6), can withstand wind Fauna tree resistant to frost (WH 1 - 6), can withstand wind, valuable for bees (honey plant) Application avenues and broad streets, parks, squares, tree containers, cemeteries, roof gardens, coastal areas, industrial areas, large gardens		
Bark and branches brown Leaf green Autumn colour red, purple Flowers white, flowers in April Fruits brown, little Spines/thorns None Toxicity usually not toxic to people, (large) pets and livestock Soil type clayed soil, loamy soil, sandy soil, nutrient-poor soil, calcareous soil Paving tolerates paving Winter hardiness zone 6a (-23,3 to -20,6 °C) Wind resistance good, also on the coast Other resistances resistant to frost (WH 1 - 6), can withstand wind Fauna tree resistant to frost (WH 1 - 6), can withstand wind, valuable for bees (honey plant) Application avenues and broad streets, parks, squares, tree containers, cemeteries, roof gardens, coastal areas, industrial areas, large gardens	Height	10-12 m
Leaf green Autumn colour red, purple Flowers white, flowers in April Fruits brown, little Spines/thorns None Toxicity usually not toxic to people, (large) pets and livestock Soil type clayed soil, loamy soil, sandy soil, nutrient-poor soil, calcareous soil Paving tolerates paving Winter hardiness zone 6a (-23,3 to -20,6 °C) Wind resistance good, also on the coast Other resistances resistant to frost (WH 1 - 6), can withstand wind Fauna tree resistances, cemeteries, roof gardens, coastal areas, industrial areas, large gardens	Crown	round/spherical, half-open crown
Autumn colour Flowers white, flowers in April brown, little Spines/thorns None Toxicity usually not toxic to people, (large) pets and livestock Soil type clayed soil, loamy soil, sandy soil, nutrient-poor soil, calcareous soil Paving tolerates paving Winter hardiness zone 6a (-23,3 to -20,6 °C) Wind resistance Other resistances resistant to frost (WH 1 - 6), can withstand wind Fauna tree resistant to frost (WH 1 - 6), can withstand wind, valuable for bees (honey plant) avenues and broad streets, parks, squares, tree containers, cemeteries, roof gardens, coastal areas, industrial areas, large gardens	Bark and branches	brown
Flowers white, flowers in April Fruits brown, little Spines/thorns None Toxicity usually not toxic to people, (large) pets and livestock Soil type clayed soil, loamy soil, sandy soil, nutrient-poor soil, calcareous soil Paving tolerates paving Winter hardiness zone 6a (-23,3 to -20,6 °C) Wind resistance good, also on the coast Other resistances resistant to frost (WH 1 - 6), can withstand wind Fauna tree resistant to frost (WH 1 - 6), can withstand wind, valuable for bees (honey plant) Application avenues and broad streets, parks, squares, tree containers, cemeteries, roof gardens, coastal areas, industrial areas, large gardens	Leaf	green
Fruits brown, little Spines/thorns None Toxicity usually not toxic to people, (large) pets and livestock Soil type clayed soil, loamy soil, sandy soil, nutrient-poor soil, calcareous soil Paving tolerates paving Winter hardiness zone 6a (-23,3 to -20,6 °C) Wind resistance good, also on the coast Other resistances resistant to frost (WH 1 - 6), can withstand wind Fauna tree resistant to frost (WH 1 - 6), can withstand wind, valuable for bees (honey plant) Application avenues and broad streets, parks, squares, tree containers, cemeteries, roof gardens, coastal areas, industrial areas, large gardens	Autumn colour	red, purple
None Toxicity usually not toxic to people, (large) pets and livestock Soil type clayed soil, loamy soil, sandy soil, nutrient-poor soil, calcareous soil Paving tolerates paving Winter hardiness zone 6a (-23,3 to -20,6 °C) Wind resistance good, also on the coast Other resistances resistant to frost (WH 1 - 6), can withstand wind Fauna tree Application None usually not toxic to people, (large) pets and livestock soil, calcareous soil tolerates paving tolerates paving (a) (-23,3 to -20,6 °C) good, also on the coast resistant to frost (WH 1 - 6), can withstand wind avenues and broad streets, parks, squares, tree containers, cemeteries, roof gardens, coastal areas, industrial areas, large gardens	Flowers	white, flowers in April
Toxicity usually not toxic to people, (large) pets and livestock Soil type clayed soil, loamy soil, sandy soil, nutrient-poor soil, calcareous soil tolerates paving Winter hardiness zone 6a (-23,3 to -20,6 °C) Wind resistance good, also on the coast Other resistances resistant to frost (WH 1 - 6), can withstand wind Fauna tree resistant to frost (WH 1 - 6), can withstand wind, valuable for bees (honey plant) avenues and broad streets, parks, squares, tree containers, cemeteries, roof gardens, coastal areas, industrial areas, large gardens	Fruits	brown, little
Soil type clayed soil, loamy soil, sandy soil, nutrient-poor soil, calcareous soil Paving tolerates paving Winter hardiness zone 6a (-23,3 to -20,6 °C) Wind resistance good, also on the coast Other resistances resistant to frost (WH 1 - 6), can withstand wind Fauna tree resistant to frost (WH 1 - 6), can withstand wind, valuable for bees (honey plant) Application avenues and broad streets, parks, squares, tree containers, cemeteries, roof gardens, coastal areas, industrial areas, large gardens	Spines/thorns	None
Paving tolerates paving Winter hardiness zone 6a (-23,3 to -20,6 °C) Wind resistance good, also on the coast Other resistances resistant to frost (WH 1 - 6), can withstand wind Fauna tree resistant to frost (WH 1 - 6), can withstand wind, valuable for bees (honey plant) Application avenues and broad streets, parks, squares, tree containers, cemeteries, roof gardens, coastal areas, industrial areas, large gardens	Toxicity	usually not toxic to people, (large) pets and livestock
Winter hardiness zone 6a (-23,3 to -20,6 °C) Wind resistance good, also on the coast Other resistances resistant to frost (WH 1 - 6), can withstand wind Fauna tree resistant to frost (WH 1 - 6), can withstand wind, valuable for bees (honey plant) avenues and broad streets, parks, squares, tree containers, cemeteries, roof gardens, coastal areas, industrial areas, large gardens	Soil type	clayed soil, loamy soil, sandy soil, nutrient-poor soil, calcareous soil
Wind resistance Other resistances resistant to frost (WH 1 - 6), can withstand wind Fauna tree resistant to frost (WH 1 - 6), can withstand wind, valuable for bees (honey plant) Application avenues and broad streets, parks, squares, tree containers, cemeteries, roof gardens, coastal areas, industrial areas, large gardens	Paving	tolerates paving
Other resistances resistant to frost (WH 1 - 6), can withstand wind resistant to frost (WH 1 - 6), can withstand wind, valuable for bees (honey plant) Application avenues and broad streets, parks, squares, tree containers, cemeteries, roof gardens, coastal areas, industrial areas, large gardens	Winter hardiness zone	6a (-23,3 to -20,6 °C)
resistant to frost (WH 1 - 6), can withstand wind, valuable for bees (honey plant) Application avenues and broad streets, parks, squares, tree containers, cemeteries, roof gardens, coastal areas, industrial areas, large gardens	Wind resistance	good, also on the coast
Application avenues and broad streets, parks, squares, tree containers, cemeteries, roof gardens, coastal areas, industrial areas, large gardens	Other resistances	resistant to frost (WH 1 - 6), can withstand wind
industrial areas, large gardens	Fauna tree	resistant to frost (WH 1 - 6), can withstand wind, valuable for bees (honey plant)
Shape clearstem tree	Application	
	Shape	clearstem tree

An American cultivar with an ovoid crown. Later, the crown sinks and becomes round to nearly fan-shaped. Height up to approx. 12 m. The glossy, deep green leaves remain on the tree until late in the autumn and eventually turn faintly purple. Abundant white flowers in umbels. The brown fruit, measuring approx. 1 cm, does not appear very often. Suitable as a solitary tree and along avenues and streets. This tree, particularly when young, is not as winter-hardy as the cultivar 'Chanticleer'. A sheltered site is recommended. Tolerates air pollution well, like all the cultivars of Pyrus calleryana. Winter hardiness zone: 6a
