

Sorbus folgneri 'Lemon Drop'

Height	10 m
Crown	round/spherical, half-open crown
Bark and branches	grey
Leaf	green, white
Flowers	white, flowers in May
Fruits	yellow
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	loamy soil, sandy soil, calcareous soil
Paving	tolerates no paving
Winter hardiness zone	6a (-23,3 to -20,6 °C)
Wind resistance	good
Other resistances	resistant to frost (WH 1 - 6), can withstand wind
Fauna tree	resistant to frost (WH 1 - 6), can withstand wind, provides food for birds
Application	avenues and broad streets, parks, cemeteries, large gardens
Shape	clearstem tree

Graceful medium-size tree with round crown shaped by pendulous branches. Grows to approx. 10 m tall and wide. The young twigs have grey-white felt-like hair. The hair disappears later leaving brown branches. The simple leaves are narrow ovate to elongated and taper to a point at the base and tip. On emerging the leaf also has felt-like hair. Later it becomes glossy dark green. In May the approx. 1 cm white flowers open in 10 cm corymbs. They are followed by oval, glossy yellow fruits. Graceful, healthy tree for parks and wide green borders.
