

Tilia platyphyllos 'Prince's Street'

Height	20 m
Crown	broad conical, half-open crown
Bark and branches	grey
Leaf	green
Autumn colour	red
Flowers	cream white, flowers in June, fragrant flowers
Fruits	green, grey
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, peaty soil, all soil types
Paving	tolerates partial paving
Winter hardiness zone	4 (-34,4 to -28,9 °C)
Wind resistance	good, susceptible to sea wind
Other resistances	resistant to frost (WH 1 - 6), can withstand wind
Fauna tree	resistant to frost (WH 1 - 6), can withstand wind, valuable for butterflies
Application	avenues and broad streets, parks, squares, cemeteries, large gardens
Shape	clearstem tree

Vigorous large tree with a strong upright growth pattern to over 20 m. The strong upward growth when young keeps it narrow for a long time. Later it forms a pyramidal crown. The young twigs are brownish red, turning bright red in winter like 'Rubra', making the winter aspect very attractive, especially with young trees.
